EDUCATION

Singapore Management University

Bachelor of Science (Computing & Law), Second Major in Computing Studies (Cybersecurity) **Aug 2023 - May 2027**

- GPA: 3.6/4.00 (magna cum laude)
- Competitions: DBS x SG Courts Hackathon for a Better World 2024 - Most Innovative; SMU Legal Innovation & Technology Hackathon 2025 - Ministry of Law (Legal Technology Transformation Office) Track Winner & Finalist
- Teaching Assistant for IS210 - Business Process Analysis & Solutioning and IS215 - Digital Business: Technologies & Transformation
- Scrum Master and team lead for final year project in collaboration with Allen & Overy Shearman, leading agile delivery

WORK EXPERIENCE

SMU School of Computing & Information Systems

Research Assistant (DeFi Security & Software Supply Chain Security) **Jan 2026 - Present**

- Authoring a research paper on DeFi software supply-chain risks, analysing Web3 bug bounty ecosystems to identify exploit patterns, remediation timelines, and gaps in security integration across product lifecycles and CI/CD workflows
- Building Python data pipelines and NLP-based classification models to structure Immunefi and Sherlock vulnerability disclosures, generating insights on risk trends across smart contracts, oracles, and infrastructure to inform security governance and platform resilience

Osborne Clarke

Legal Intern (Corporate + Technology, Media, and Telecom) **Dec 2025 - Jan 2026**

- Examined content-platform liability and IP enforcement risks, translating regulation into operational governance decisions for digital marketplaces
- Evaluated product-compliance trade-offs (content reuse, scraping), balancing platform growth with regulatory risk
- Contributed to structured playbooks for early-stage ventures, formalising governance, escalation and decision-rights mechanisms

PricewaterhouseCoopers LLP

NewLaw Intern (Legal Management Consulting) **May 2025 - Aug 2025**

- Supported APAC legal digital transformation initiatives for law firms and in-house legal teams
- Developed structured comparison datasets for 30 NDAs and Tax LOEs across client engagements and PwC's internal Tax practice, standardising clause equivalencies to support contract harmonisation and Contract Lifecycle Management (CLM) implementation
- Applied data analysis on 3,000+ law-firm partnership and headcount records to uncover structural trends and performance indicators
- Performed cross-jurisdictional analysis of GenAI regulatory frameworks, translating legal requirements into operational constraints

Infocomm Media Development Authority

Data Analyst **May 2025 - Jun 2025**

- Analysed 500 annual contract reviews and clearance records across IMDA divisions to surface process milestones, bottlenecks, and root causes of delays

SMU Yong Pung How School of Law

Research Assistant (Centre for Digital Law) **Dec 2024 - Aug 2025**

- Built a structured dataset of 500 Legal Natural Language Processing (NLP) papers by reviewing proceedings of both general NLP conferences (ROCLING, RANLP, etc.) as well as several specialised Legal NLP gatherings (Jurix, ICAIL, ISAIL, etc.)
- Conducted an in-depth literature review to support the paper "Natural Language Processing in the Legal Domain"

Rajah & Tann Technologies

Legal Tech Intern **Jun 2024 - Nov 2024**

- Executed proof of concept (PoC) projects to evaluate emerging technologies, including Zero Trust Network Access (ZTNA) solutions, AI powered Legal Document Management and automation
- Performed data preprocessing for eDiscovery and production of documents in ongoing legal cases, ensuring data accuracy
- Configured a Linux server to enable Remote Desktop (RDP) login capabilities for Rajah & Tann's forensic workstations

Tito Isaac & Co LLP

Legal Intern (Litigation & Dispute Resolution) **Apr 2023 - May 2023**

- Conducted legal research and assisted in litigation involving Security of Payment Act (SOPA) claims relating to statutory payment claim timelines, drafted affidavits and assisted in deputyship and family law proceedings

The Digital & Intelligence Service

Senior Geospatial Mapper (Operations Specialist) **Jan 2021 - Apr 2023**

- Led geospatial intelligence operations, managing 150 personnel and coordinating cross-agency stakeholders to deliver large scale GIS support systems for MINDEF/SAF and WoG

PRO BONO

State Courts, The Community Justice Centre

Legal Technologist and On-site Legal Advice Scheme (OSLAS) Volunteer **Oct 2024 - Jan 2026**

- Automated retrieval of court documents in collaboration with Thomson Reuters to streamline access to relevant court forms
- Performed on-site triage, intake assessment and referral routing for unrepresented litigants

SKILLS & CERTIFICATIONS

- **Certifications:** RelativityOne Certified Pro
- **Tools & Technologies:** SQL, Python, Java, JavaScript, Linux, HTML/CSS, eDiscovery, Git, JIRA, Geographic Information Systems (GIS)
- **Domains:** Product management, agile project management, A/B testing, business process analysis, contracts, data privacy (PDPA), intellectual property
