EDUCATION

Singapore Management University

Bachelor of Science (Computing & Law), Second Major in Computing Studies (Cybersecurity)   **Aug 2023 - May 2027**

- GPA: 3.6/4.00 (magna cum laude)
- Competitions: DBS x SG Courts Hackathon for a Better World 2024 - Most Innovative; SMU Legal Innovation & Technology Hackathon 2025 - Ministry of Law (Legal Technology Transformation Office) Track Winner & Finalist
- Teaching Assistant for IS210 - Business Process Analysis & Solutioning and IS215 - Digital Business: Technologies & Transformation
- Scrum Master and team lead for final year project in collaboration with Allen & Overy Shearman, leading agile delivery

WORK EXPERIENCE

SMU School of Computing & Information Systems

Research Assistant (DeFi Security & Software Supply Chain Security)   **Jan 2026 - Present**

- Authoring an academic paper on Decentralised Finance (DeFi) software supply-chain vulnerabilities, evaluating Web3 bug bounty programs to identify exploit patterns, remediation timelines, and CI/CD security integration gaps.

Osborne Clarke

Legal Intern (Corporate + Technology, Media, and Telecom)   **Dec 2025 - Jan 2026**

- Examined content-platform liability, IP ownership and enforcement risks for online marketplaces, translating regulatory and contractual constraints into operational risk considerations
- Assessed trade-offs between product functionality (content reuse, scraping) and compliance exposure across multiple jurisdictions
- Contributed to structured playbooks for early-stage ventures, formalising governance, escalation and decision-rights mechanisms

PricewaterhouseCoopers LLP

NewLaw Intern (Legal Management Consulting)   **May 2025 - Aug 2025**

- Supported APAC legal digital transformation initiatives for law firms and in-house legal teams
- Developed structured comparison datasets for 30 NDAs and Tax LOEs across client engagements and PwC's internal Tax practice, standardising clause equivalencies to support contract harmonisation and Contract Lifecycle Management (CLM) implementation
- Applied data analysis on 3,000+ law-firm partnership and headcount records to uncover structural trends and performance indicators
- Performed cross-jurisdictional analysis of GenAI regulatory frameworks, translating legal requirements into operational constraints

Infocomm Media Development Authority

Data Analyst   **May 2025 - Jun 2025**

- Analysed 500 annual contract reviews and clearance records across IMDA divisions to surface process milestones, bottlenecks, and root causes of delays

SMU Yong Pung How School of Law

Research Assistant (Centre for Digital Law)   **Dec 2024 - Aug 2025**

- Built a structured dataset of 500 Legal Natural Language Processing (NLP) papers by reviewing proceedings of both general NLP conferences (ROCLING, RANLP, etc.) as well as several specialised Legal NLP gatherings (Jurix, ICAIL, ISAIL, etc.)
- Conducted an in-depth literature review to support the paper "Natural Language Processing in the Legal Domain"

Rajah & Tann Technologies

Legal Tech Intern   **Jun 2024 - Nov 2024**

- Executed proof of concept (PoC) projects to evaluate emerging technologies, including Zero Trust Network Access (ZTNA) solutions, AI powered Legal Document Management and automation
- Reviewed contracts, draft agreements and performed legal research to map industries requiring Customer Due Diligence
- Performed data preprocessing for eDiscovery and production of documents in ongoing legal cases, ensuring data accuracy
- Configured a Linux server to enable Remote Desktop (RDP) and Secure Shell (SSH) login capabilities for Rajah & Tann's forensic workstations

Tito Isaac & Co LLP

Legal Intern (Litigation & Dispute Resolution)   **Apr 2023 - May 2023**

- Conducted legal research and assisted in litigation involving Security of Payment Act (SOPA) claims relating to statutory payment claim timelines, drafted affidavits and assisted in deputyship and family law proceedings

The Digital & Intelligence Service

Senior Geospatial Mapper (Operations Specialist)   **Jan 2021 - Apr 2023**

- Led geospatial data analysis and production for operational planning, managing a team of 150 and delivering large-scale GIS products for defence and government use across MINDEF/SAF and Whole of Government (WoG) agencies

PRO BONO

State Courts, The Community Justice Centre

Legal Technologist and On-site Legal Advice Scheme (OSLAS) Volunteer   **Oct 2024 - Present**

- Automated retrieval of court documents in collaboration with Thomson Reuters to streamline access to relevant court forms
- Performed on-site triage, intake assessment and referral routing for unrepresented litigants

SKILLS & CERTIFICATIONS

- **Certifications:** RelativityOne Certified Pro
- **Tools & Technologies:** SQL, Python, Java, JavaScript, Linux, HTML/CSS, eDiscovery, Git, JIRA, Geographic Information Systems (GIS)
- **Domains:** Product management, agile project management, A/B testing, business process analysis, workflow design, contracts, data privacy (PDPA), intellectual property
